PIPE BEVELING MACHINE

01 PIPE BEVELING MACHINE ISE 630

- Easy set-up & Operation
- Self-Centering, High precision
- Ratchet Handle make tool feed/ back easily
- Light weight and compact design, easy to carry
- Standard Electric drive. Optional Pneumatic drive.

Key Specifications

Driven	: Electric
Power	: 1800 W
Working Range ID	: 80 – 240 mm
Voltage	: 220V / 50/60 HZ
Wall thickness	: < 20 mm
Speed	: 16 RPM
Weight	: 35Kgs

02 PIPE BEVELING MACHINE ISE 352

- Easy set-up & Operation
- Self-Centering, High precision
- Ratchet Handle make tool feed/ back easily
- Light weight and compact design, easy to carry
- Standard Electric drive. Optional Pneumatic drive.

Key Specifications

Driven	: Electric
Power	: 1800 W
Working Range ID	: 150 – 330 mm
Voltage	: 220V / 50/60 HZ
Wall thickness	: < 20 mm
Speed	: 14 RPM
Weight	: 52 Kgs

03 PIPE BEVELING MACHINE ISE 120

- Easy set-up & Operation
- Self-Centering, High precision
- Ratchet Handle make tool feed/ back easily
- Light weight and compact design, easy to carry
- Standard Electric drive. Optional Pneumatic drive.

Key Specifications

Driven	: Electric
Power	: 1500 W
Working Range ID	: 40 – 114 mm
Voltage	: 220V / 50/60 HZ
Wall thickness	: < 15 mm
Speed	: 30 RPM
Weight	: 18 Kgs

04 PIPE BEVELING MACHINE ISE 159

- Easy set-up & Operation
- Self-Centering, High precision
- Ratchet Handle make tool feed/ back easily
- Light weight and compact design, easy to carry
- Standard Electric drive. Optional Pneumatic drive.

Key Specifications

Driven	: Electric
Power	: 1500 W
Working Range ID	: 65 – 159 mm
Voltage	: 220V / 50/60 HZ
Wall thickness	: < 20 mm
Speed	: 35 RPM
Weight	: 25 Kgs

05 PIPE BEVELING MACHINE ISE 630

- Easy set-up & Operation
- Self-Centering, High precision
- Ratchet Handle make tool feed/ back easily
- Heavy Duty and compact design
- Standard Electric drive. Optional Pneumatic drive.

Key Specifications

Driven	: Electric
Power	: 2000 W
Working Range ID	: 300-600 mm
Voltage	: 220V / 50/60 HZ
Wall thickness	: < 20 mm
Speed	: 10 RPM
Weight	: 98 Kgs
