ANCHOR FASTNERS (FISCHER - GERMANY)

WEDGE ANCHORS - **FWA Series**

Mechanical anchoring solutions for heavy loads

- Mechanical anchoring solution for heavy loads in concrete.
- Suitable for cracked and non-cracked concrete.
- Can be used indoors and outdoors.
- Designed for highly corrosive environments.
- Special solutions available for fire and earthquake protection.
- Fischer offers high-quality, tested and approved anchoring solutions.
- Different functional principles meet various application needs.
- Provides easy installation and high load-bearing capacity.
- Ensures high safety and reliability.

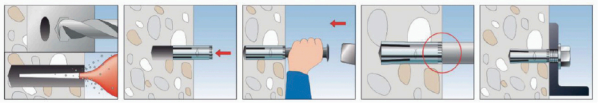

HAMMERSET ANCHOR **EA - N**

The cost-effective hammerset anchor used for multiple fixings in non-structural systems

The fischer hammerset anchor EAN is an internal threaded anchor made from zinc-plated and stainless steel. The hammerset anchor is ideal for the multiple fixation of non-structural systems that do not require approved anchorage.

Variant	Drill diameter	Min. bolt penetration	Max. bolt penetration	Packaging
EA M6 N	8 mm	6 mm	12 mm	100 [Pcs]
EA M8 N	10 mm	8 mm	13 mm	100 [Pcs]
EA M10 N	12 mm	10 mm	17 mm	50 [Pcs]
EA M12 N	15 mm	12 mm	22 mm	50 [Pcs]
EA M16 N	20 mm	16 mm	27 mm	25 [Pcs]
EA M20 N	25 mm	20 mm	34 mm	25 [Pcs]

fischer

CHEMICAL FIXING PRODUCTS

Chemical fixing solutions for heavy-duty fixings in concrete and masonry

Chemical fixings are the fixing solution for transferring extreme loads in concrete, aerated concrete or masonry expansion-free. fischer has a unique competence in developing and manufacturing chemical fixing solutions. This allows an optimum and secure solution to be offered for all applications, even under extreme construction site conditions such as wet, cold or heat: approved systems with resin capsules, injection mortars, threaded rods, internal threaded rods, anchor sleeves, accessories and processing equipment.

Model No.	FIS EM Plus 585 S
Material	High - Quality Epoxy Resin Motor
Packaging Type	Cartridge
Packaging Size	825g/ 585ml
Application	Rebar connections & Cracked concrete

Model No.	FIS V PLUS 360S
Material	Epoxy
Packaging Type	Cartridge
Packaging Size	390ml / 570g
Application	Wall Construction

Model No.	FIS EM Plus 390 S
Material	Power
Packaging Type	Cartridge
Packaging Size	550g / 390ml
Application	Block Jointing

The Fischer dispenser FIS AM is suitable for quickly dispensing Fischer injection cartridges up to 390 ml.

Advantages

- Dispenser for Two
- Chamber Cartridge
- Withstands high requirements of the job site
- Robust design with a longer life
- Variable feed allows the exact dosing
- Ensures easy handling
