# HOLE CUTTING MACHINE

## 01 HOLE CUTTING MACHINE **RHC 150**

- This Machine is designed for Drilling Hole up to 6" on a Steel Pipe

- Equipped with a high performance low noise gear reduction motor to offer high torque

### Key Specifications

| | |
|---|---|
| Capacity: | Upto 6" (152 mm) |
| Mounting Capacity: | 30 – 300 mm |
| Power: | 1500 W |
| Voltage: | 220V / 50/60 HZ |
| Speed: | 110 RPM |
| Weight: | 20 Kgs |

## 02 HOLE CUTTING MACHINE **RHC 114**

- This Machine is designed for Drilling Hole up to 4" on a Steel Pipe

- Equipped with a high performance low noise gear reduction motor to offer high torque

### Key Specifications

| | |
|---|---|
| Capacity: | Upto 4" (114 mm) |
| Mounting Capacity: | 32 – 220 mm |
| Power: | 1500 W |
| Voltage: | 220V / 50/60 HZ |
| Speed: | 240 RPM |
| Weight: | 15 Kgs |

## 03 HOLE CUTTING MACHINE **RHC 120**

- This Machine is designed for Drilling Hole up to 5" on a Steel Pipe

- Equipped with a high performance low noise gear reduction motor to offer high torque

### Key Specifications

| | |
|---|---|
| Capacity: | Upto 5" (120 mm) |
| Mounting Capacity: | 60 – 219 mm |
| Power: | 1300 W |
| Voltage: | 220V / 50/60 HZ |
| Speed: | 100 - 330 RPM |
| Weight: | 14 Kgs |
